

Chatswood Transport Interchange

From Monday 16 October 2006 train services at Chatswood Station will operate from the new western platform and concourse.

Pedestrian access to trains will only be provided via the new station entrance, located at the corner of Railway Street and Victoria Avenue.

The new station, concourse and ticketing facilities will be accessed via stairs, escalators and lifts.

The lifts will provide access from street level to concourse level and from concourse level to the platform.

The pedestrian bridge currently providing east-west access between Railway Street and the Chatswood Mall will remain, however, no access to the new station will be provided.

Access to buses will remain in place in Endeavour Street, Anderson Street, Victoria Avenue and the northern end of Railway Street. Access to bus routes 255, 258 and 261 will move from Railway Street to Victoria Avenue. New pickup and drop off points will be allocated and marked with signage.

Detailed signage will be installed at various locations around the site to direct pedestrian movement.

From 16 October 2006 construction of the Chatswood Transport Interchange will move to the eastern side of the site, with trains operating from the new western platform and station concourse.

Pedestrian access

Pedestrian access to the station platforms will only be via the new station entrance, located at the corner of Railway Street and Victoria Avenue.

The bridge currently providing east-west access between Railway Street and Chatswood Mall will remain, however, no access to the new station platform will be provided.

Access changes

No additional vehicle traffic changes will be required during this phase of construction. The bus stop servicing bus routes 255, 258 and 261 will be relocated from Railway Street to Victoria Avenue.

Bus nightride services

There will be no change to the nightride bus stop located in Railway Street.
